## EXPERIENCE

### Javra Software, Kumaripati — Junior software Engineer

November 2021 - September 2022

Worked mainly on backend using Progress 4GL; maintained and debugged existing systems, built features, worked with APIs, databases, and occasionally frontend; assisted in database migration.

### Lunar IT solutions, Itahari — Intern

June 2025 - July 2025

Built responsive frontend with React and Tailwind; tested APIs using Postman/Thunder Client and worked with Express for backend integration.

### Apprentice Developer (Mentored Collaboration)

July 2025 - Present

Informal role under mentorship of an experienced developer. I am contributing to an ongoing project, completing frontend tasks in Nextjs and occasionally backend tasks in Nestjs

## EDUCATION

### Nepal Engineering College, Changunaryan

Bachelor in Computer Engineering

MONTH 2017 - MONTH 2023

I had a great learning opportunity to deeply explore web development using PHP, MySQL, and jQuery.

Built numerous academic projects for friends, seniors, and juniors, gaining practical experience in full-stack development and teamwork.

## PROJECT

### EasySewa — Peer-to-Peer Payment App(In progress)

It is a money transfer app with few unconventional features like **Khutruke** and requests for money. It is built on React, TailwindCss & Firebase.
